April 3, 2020

Dear Parents and Guardians,

During these unprecedented times, we want you to know first and foremost that we are thinking about you and wishing you well as we all try our best to handle this disruption in our lives. This pandemic has certainly impacted our entire nation, but we have to do our best to maintain a positive outlook. As public health concerns continue to surround us regarding COVID-19, I wanted to include information that was provided by Dr. William Jenkins, an emergency medical physician with Excela Health, during a recent meeting with school leaders of Westmoreland County.

Dr. Jenkins requested to all school leaders that:

“The next two weeks are critical to our public health efforts to control the spread of COVID-19. Community cooperation is essential to eliminating disease spread. As the weather gets nicer, please continue social distancing and resist the urge to congregate outside in groups. IT is essential that all families do their part to help us through this difficult and potential dangerous time. IT will take the efforts of everyone to eliminate this disease threat from our communities. PLEASE continue to maintain social distancing during essential travel outdoors and stay at home when at all possible.”

To echo his statement, I request that we all continue social distancing to the greatest extent so we can get back to school and return to normalcy as soon as possible.

Finally, please do not hesitate to contact us if you or your family are experiencing hardships during this difficult time. We will do our best to help you in any way we possibly can.

Together we will get through this and become stronger by doing so.

Sincerely,

A handwritten signature in black ink that reads "D. F. Carlquist".
