The Partial Program is designed to accept children who require a higher level of structure and support than traditional mental health outpatient treatment, but who are not showing the level of acuity that would necessitate mental health inpatient treatment.

The Emotional Support Program is a temporary placement to assist students in returning successfully to their home school. This program provides on-site therapy services by a Licensed Mental Health professional on staff. In conjunction with the reasons for referral and the student's Individual Education Plan, the therapist utilizes the DSM-5 assessments to help create the individual treatment plan and tailor the identified student's treatment needs.
